**No. 1 Constitutional Amendment  
Article VI, Section 2  
Citizenship Requirement to Vote in  
Florida Elections**

This amendment provides that only United States Citizens who are at least eighteen years of age, a permanent resident of Florida, and registered to vote, as provided by law, shall be qualified to vote in a Florida election.

Because the proposed amendment is not expected to result in any changes to the voter registration process in Florida, it will have no impact on state or local government costs or revenue. Further, it will have no effect on the state's economy.

**No. 2 Constitutional Amendment  
Article X, Section 24  
Raising Florida's Minimum Wage**

Raises minimum wage to \$10.00 per hour effective September 30th, 2021. Each September 30th thereafter, minimum wage shall increase by \$1.00 per hour until the minimum wage reaches \$15.00 per hour on September 30th, 2026. From that point forward, future minimum wage increases shall revert to being adjusted annually for inflation starting September 30th, 2027.

State and local government costs will increase to comply with the new minimum wage levels. Additional annual wage costs will be approximately \$16 million in 2022, increasing to about \$540 million in 2027 and thereafter. Government actions to mitigate these costs are unlikely to produce material savings. Other government costs and revenue impacts, both positive and negative, are not quantifiable.

**THIS PROPOSED  
CONSTITUTIONAL AMENDMENT IS  
ESTIMATED TO HAVE A NET  
NEGATIVE IMPACT ON THE STATE  
BUDGET. THIS IMPACT MAY  
RESULT IN HIGHER TAXES OR A  
LOSS OF GOVERNMENT  
SERVICES IN ORDER TO  
MAINTAIN A BALANCED STATE  
BUDGET AS REQUIRED BY THE  
CONSTITUTION.**

**No. 3 Constitutional Amendment  
Article VI, Section 5  
All Voters Vote in Primary  
Elections for State Legislature,  
Governor, and Cabinet**

Allows all registered voters to vote in primaries for state legislature, governor, and cabinet regardless of political party affiliation. All candidates for an office, including party nominated candidates, appear on the same primary ballot. Two highest vote getters advance to general election. If only two candidates qualify, no primary is held and winner is determined in general election. Candidate's party affiliation may appear on ballot as provided by law. Effective January 1, 2024.

It is probable that the proposed amendment will result in additional local government costs to conduct elections in Florida. The Financial Impact Estimating Conference projects that the combined costs across counties will range from \$5.2 million to \$5.8 million for each of the first three election cycles occurring in even-numbered years after the amendment's effective date, with the costs for each of the intervening years dropping to less than \$450,000. With respect to state costs for oversight, the additional costs for administering elections are expected to be minimal. Further, there are no revenues linked to voting in Florida. Since there is no impact on state costs or revenues, there will be no impact on the state's budget. While the proposed amendment will result in an increase in local expenditures, this change is expected to be below the threshold that would produce a statewide economic impact.

**No. 4 Constitutional Amendment  
Article XI, Sections 5 and 7  
Voter Approval of Constitutional  
Amendments**

Requires all proposed amendments or revisions to the state constitution to be approved by the voters in two elections, instead of one, in order to take effect. The proposal applies the current thresholds for passage to each of the two elections.

It is probable that the proposed amendment will result in additional state and local government costs to conduct elections in Florida. Overall, these costs will vary from election cycle to election cycle depending on the unique circumstances of each ballot and cannot be estimated at this time. The key factors determining cost include the number of amendments appearing for the second time on each ballot and the length of those amendments. Since the maximum state cost is likely less than \$1 million per cycle but the impact cannot be discretely quantified, the change to the state's budget is unknown. Similarly, the economic impact cannot be modelled, although the spending increase is expected to be below the threshold that would produce a statewide economic impact. Because there are no revenues linked to voting in Florida, there will be no impact on government taxes or fees.

**THE FINANCIAL IMPACT OF THIS  
AMENDMENT CANNOT BE
